WHITENIG LINE

WHITENIG AMPOULE
WHITENIG CREAM

WHITENIG AMPOULE

50 ml / 1.69 fl oz

효능 · 효과 : 미백, 수분공급

주요성분 : 은행추출물, MC-글루칸, 나이아신아마이드

사용법 : 미스트 사용 후 본 제품을 얼굴 전체에 마사지하듯 발라줍니다.

Efficacy/Effectiveness : Regeneration, Moisture Supply

Main ingredient : Ginkgo Biloba Nut Extract, MC-Glucan, Niacinamide

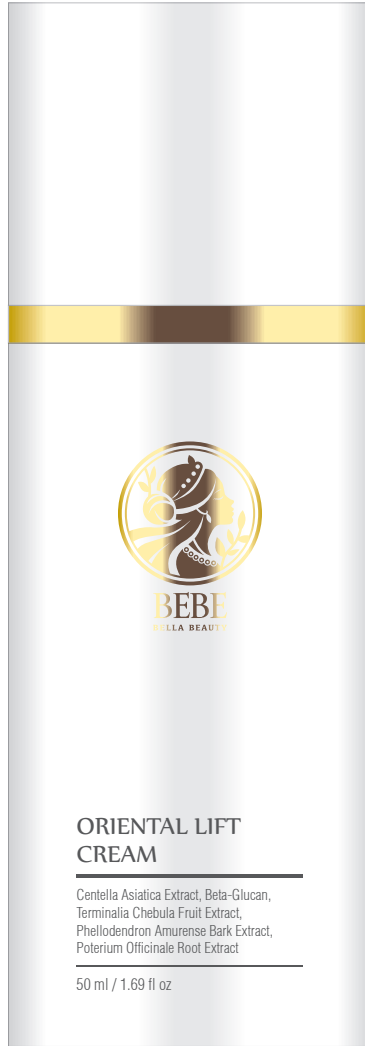

How to use : After using the mist, apply this product to your entire face by massaging it in.

無 화학방부제, 無 색소, 無 향료

NO Chemical preservatives, **NO** Colorants, **NO** Fragrances

WHITENIG CREAM

80 ml / 1.69 fl oz

효능 · 효과 : 미백

주요성분 : 은행추출물, 보르피린, 세라마이드 LC S-20, V2G(아스코빌글루코사이드), 올리고펩타이드-1, 올리고펩타이드-2, 올리고펩타이드-3, 헥사펩타이드-11, 나이아신아마이드

사용법 : 앰플 사용 후 얼굴 전체에 골고루 발라줍니다.

Efficacy/Effectiveness : Whitening, Wrinkle improvement, Regeneration

Main ingredient : Ginkgo Biloba Nut Extract, Ceramide LC S-20, V2G (Ascorbyl Glucoside), Oligopeptide-1, Oligopeptide-2, Oligopeptide-3, Hexapeptide-11, Niacinamide

How to use : After using the ampoule, apply evenly over the entire face.

無 화학방부제, 無 색소, 無 향료

NO Chemical preservatives, NO Colorants, NO Fragrances

TROUBLE LINE

CICATOX Ampoule
CICATOX Cream

CICATOX Ampoule

30 ml / 0.01 fl oz

효능 · 효과 : 항균, 항염 효과, 자연유래 성분, 부드러운 에센셜 제형, 피부 밸런스, 탁월한 보습력, 유해균을 없애 줌
주요성분 : 은행추출물, 병풀추출물, 가자알매추출물, 황벽나무껍질추출물, 오이풀뿌리추출물, 스페인감초뿌리추출물, 모란뿌리추출물, 황금추출물

사용법 : 적당량을 덜어 피부에 부드럽게 펴 바른 후 두드려 줍니다.

Efficacy/Effectiveness : Antibacterial, anti-inflammatory effects, natural ingredients, gentle essential formulation, skin balance, excellent moisturizing power, eliminates harmful bacteria

Main ingredient : Ginkgo Biloba Nut Extract, Centella Asiatica Extract, Terminalia Chebula Fruit Extract, Phellodendron Amurense Bark Extract, Poterium Officinale Root Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Paeonia Suffruticosa Root Extract, Scutellaria Baicalensis Root Extract

How to use : Take an appropriate amount, apply gently to the skin, and pat gently.

無 화학방부제, 無 색소, 無 향료

NO Chemical preservatives, **NO** Colorants, **NO** Fragrances

CICATOX Cream

50 ml / 1.69 fl oz

효능 · 효과 : 피부의 장벽을 보호, 유해균으로부터 보호, pH 밸런스 유지, 고분자 히알루론산의 피부 보습, 재생 효과

주요성분 : 은행추출물, 병풀추출물, 유황

사용법 : 적당량을 덜어 피부에 부드럽게 펴 바른 후 두드려 줍니다.

Efficacy/Effectiveness : Protects the skin barrier, protects against harmful bacteria, maintains pH balance, and has skin moisturizing and regenerative effects from high molecular weight hyaluronic acid.

Main ingredient : Ginkgo Biloba Nut Extract, Centella Asiatica Extract, Sulfur

How to use : Take an appropriate amount, apply gently to the skin, and pat gently.

無 화학방부제, 無 색소, 無 향료

The Korean Society for Aesthetics and Cosmetology
 'Clinical Trial of Multifunctional Cosmetics on the Effects on Skin'

The role of fermented ginkgo extract

In order to verify the effectiveness of fermented cosmetics using ginkgo vinegar, this study looked at changes in the skin condition of the subjects and analyzed the degree of change in oily skin, skin with reduced elasticity, aged skin, and chicken skin groups to determine the skin's moisture, oil, and pore size. , keratin condition, and pigmentation were measured.

Modern society wants to give people a convenient life in many ways, making it easier to live through scientifying, mechanizing, and digitalizing. But on the other hand, it becomes more complex due to accumulation of indistinction information whether needs to be known or discarded. In the same vein, Cosmetics became our necessities and improve skin problems including skin aging, but indiscriminate use of cosmetics causes several side effects at the same time. Therefore, A clinical trial was conducted to analyze nano-sized fermented natural herbs (especially the ginkgo vinegar) extract's multi-skin beneficial based on its permeability.

Fermented Ginkgo extract

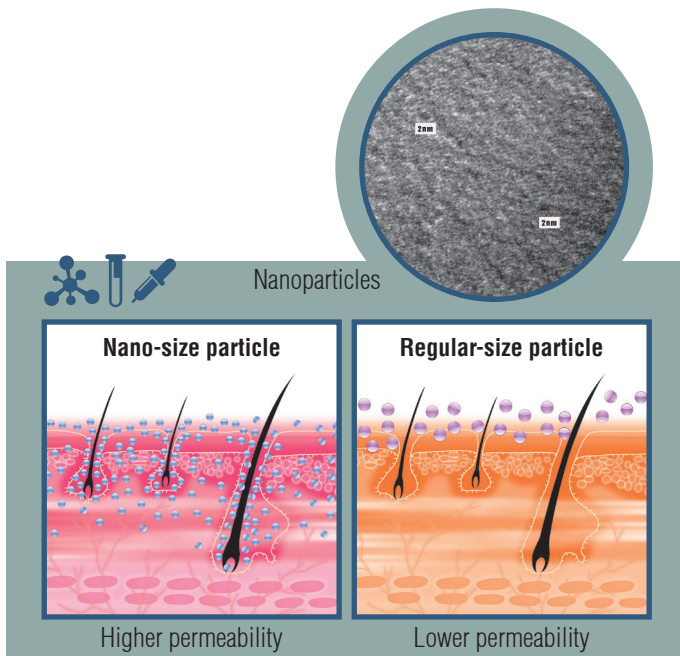

Ingredient; Ginkgo vinegar(Ginkgo Biloba Nut Extract)

Each part of Ginkgo trees like roots, stems, leaves, fruits and barks can be used as medicinal ingredients, but use of every part varies depending on the purpose.

To make beneficial vinegar using Ginkgo which might has toxic, there should be a delicate step to separate ginkgo's fruit and outer peel. and outer peel is a main ingredient for the vinegar. Ginkgo vinegar has more effective antibacterial ability than other vinegar, and it is good for high blood pressure, cancer, Alzheimer's disease, Pulmonary tuberculosis, Asthma, increase activity of kidney, and blood circulation.

| | |
|------------------|---|
| Immediate Action | Skin moisture barrier formation by capturing moist particle |
| Prolonged Action | long-term hydration |

It protects the skin from UV, harmful environments, and pollutants, forms moisture barrier by capturing moist particle to keep our skin soft and moist.

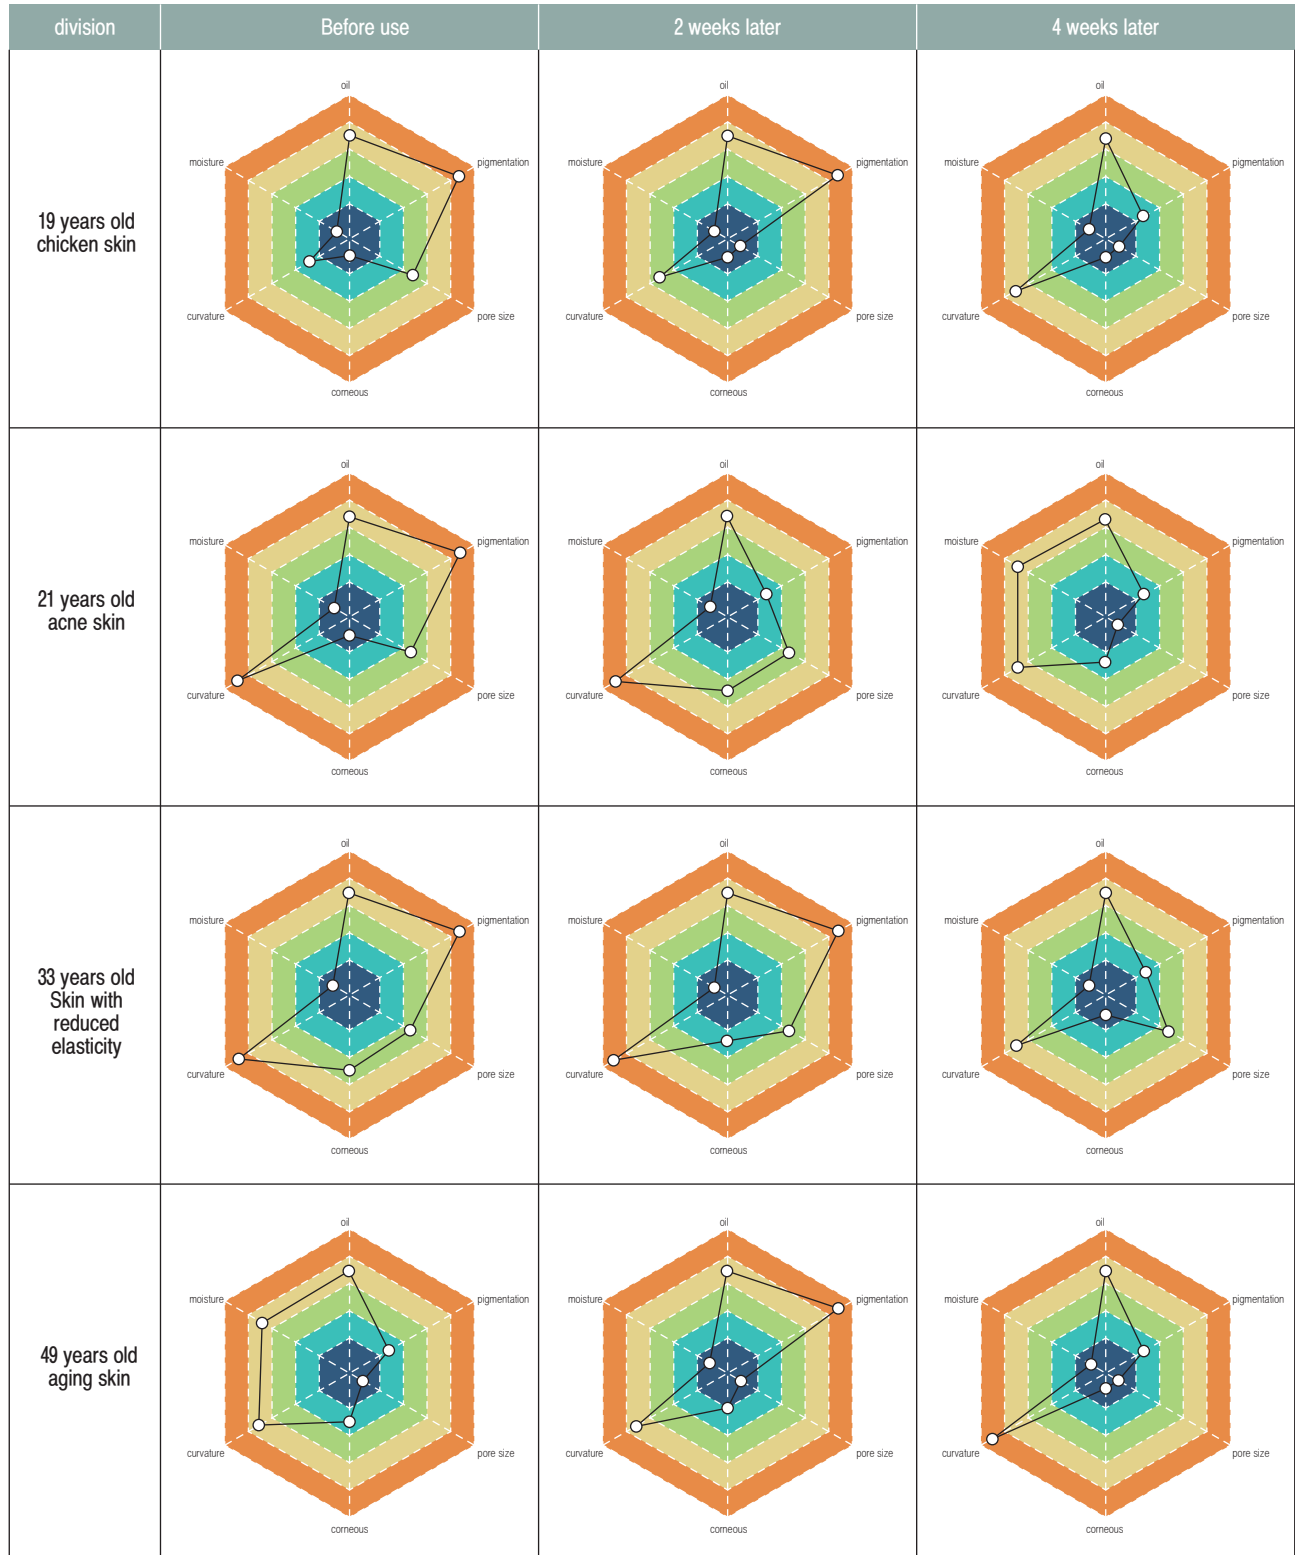

It is effective in exfoliating, preventing skin roughness, and be penetrated deep in the skin which can enhance its skin beneficial abilities.

Results

Improvement of the subject's skin

Even in the changes in the degree of skin improvement according to the use of face wash by skin type An improved degree of change was observed in oily skin, acne skin, low elasticity skin, and aging skin.

► Subject's skin improvement chart

► Changes in the Skin Condition of Ginkgo Biloba Nut Extract

Measurements of pigmentation, oiliness, pore size, flexibility, and keratin to verify changes in skin condition compared to before the experiment. After the experiment, the overall trend of decrease was shown, and in the case of moisture, compared to before the experiment. It was confirmed that it caused a positive change in the skin condition by showing an increased result.

To verify the changes in skin condition, a comparative analysis of the measurements of pigmentation, pore size, flexibility, and dead skin cells before the experiment showed that pigmentation had a 95% confidence level. It was found that there was no significant change. There was a significant change in oil changes, and it was found that the oil reduction of oily skin was higher than that of other skin types by skin type. In the case of moisture, experiment it was found to be statistically significant in the difference in average values compared to before. Statistically significant results were presented in the changes in the measured values before and after the pore size experiment. It was found that the use of face wash was effective in pores. In the comparison of the change in curvature, significant statistical warfare results were presented at the 95% confidence level. It was found that there was an effect on the change in skin flexibility according to the use of face wash. In the case of dead skin cells, significant results were shown at the 95% confidence level.

► Changes in skin condition measurement values for each week of Ginkgo Biloba Nut Extract fermented raw materials

Looking at the changes in the average value of skin dead skin cells, flexibility, and pore size for each week according to the progress of the experiment, dead skin cells show a steep decrease after one use. At week 2 and week 3, there was a slight increase and then decreased again at week 4. This shows that the subjects' dead skin cells change, and 2, 3 The slight increase in parking is believed to be due to the progress of keratinization according to the subjects' keratin cycle, but the effectiveness of this product did not show much increase. It is believed to have affected the change in the thickness of dead skin cells.

Changes in flexibility and pore size showed irregular trends, increasing and decreasing for each week rather than presenting special patterns, but decreased as the experiment progressed.

Anti-ageing effect of Ginkgo Biloba Nut Extract

Increases collagen type I & III gene expression

- It increases collagen gene expression by 90% compared to retinol

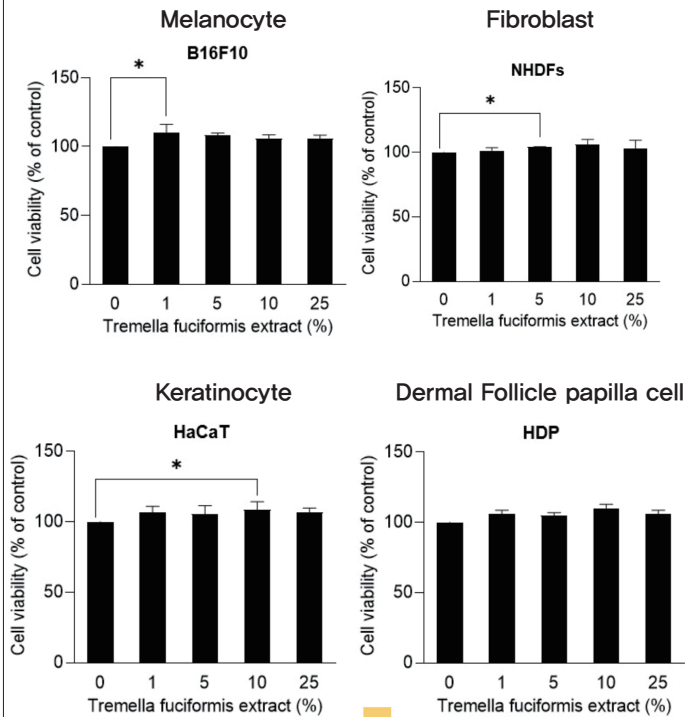

UV protection effect of Ginkgo extract

- It helps to regenerate collagen damaged by UV

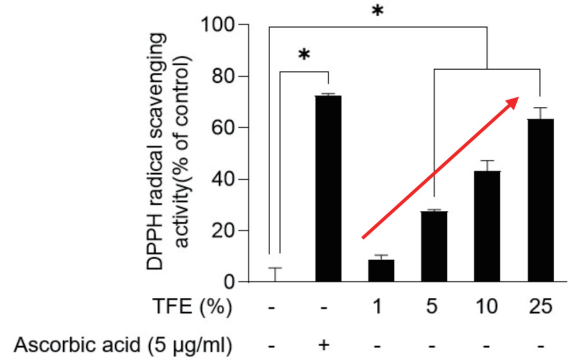

Cell cytotoxicity and antioxidant effect of Ginkgo Biloba Nut Extract

Cell cytotoxicity of Ginkgo extract

● It shows no toxicity on various skin cell

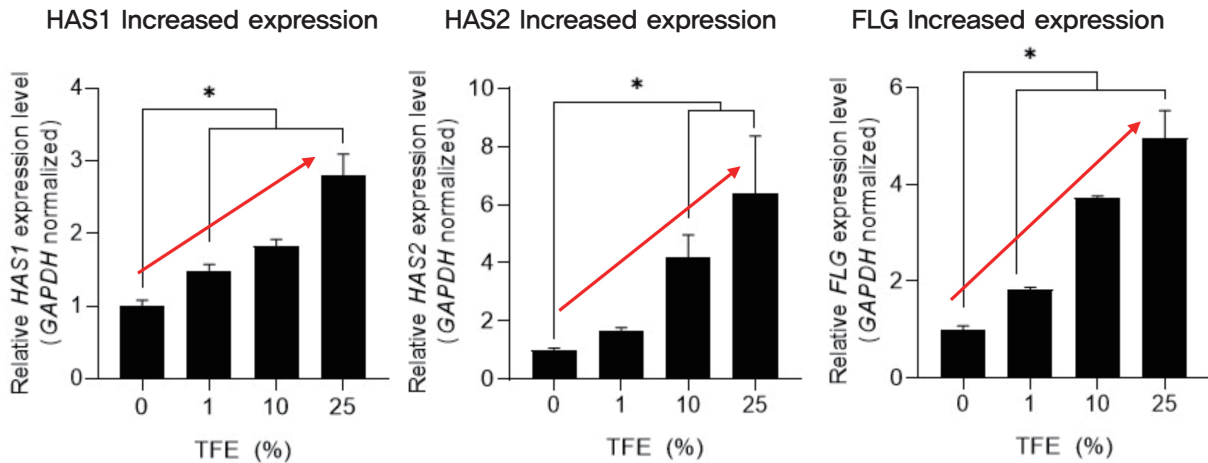

Antioxidant effect of Ginkgo extract

- Conducted DPPH radical scavenging activity (Antioxidant)
- It increases antioxidant effect by 85% compared to Vitamin C

Cell moisturizing (skin barrier) improvement effect of Ginkgo Biloba Nut Extract

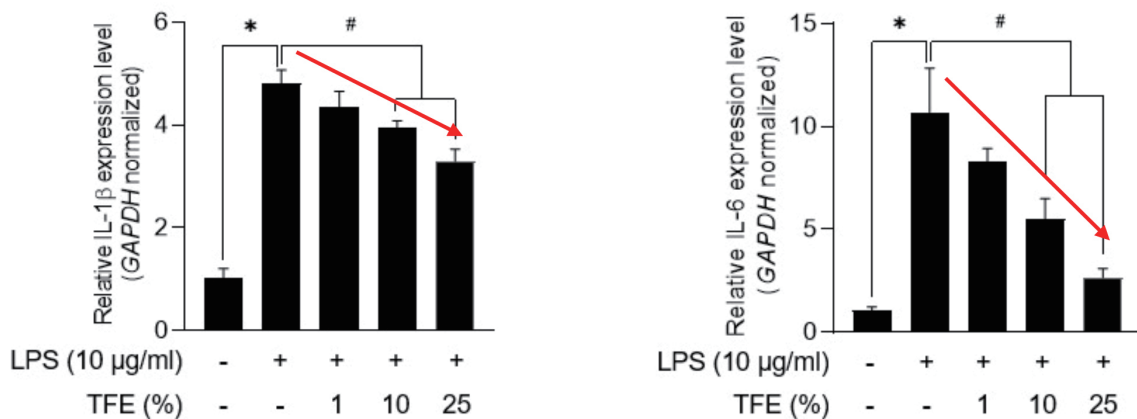

Confirmed effectiveness of moisturizing and strengthening skin barrier

- Confirmed increased expression of skin cell moisturizing and skin barrier genes (HAS1, HAS2, FLG)
- Induces increased expression of Hyaluronic Acid synthesizing enzymes
- Induction of expression of filaggrin (FLG), the precursor of natural moisturizing factors

Anti-inflammatory effect of Ginkgo Biloba Nut Extract

Anti-inflammatory effect of Ginkgo extract

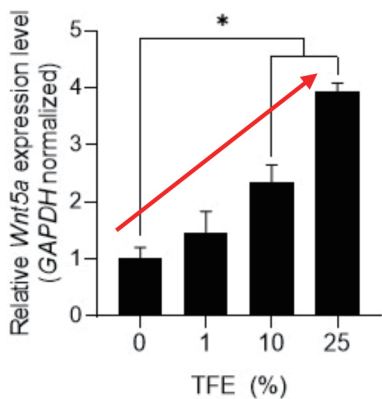

- Inhibits the inflammatory related cytokines expression.

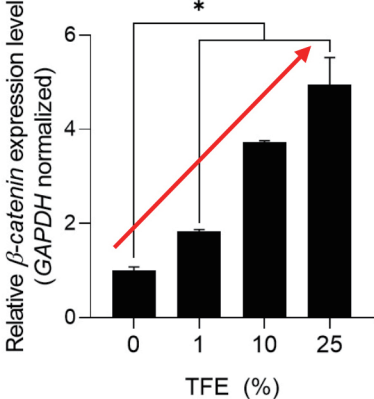

Cell growth–inducing effect of Ginkgo Biloba Nut Extract

Confirmation of cell growth efficacy

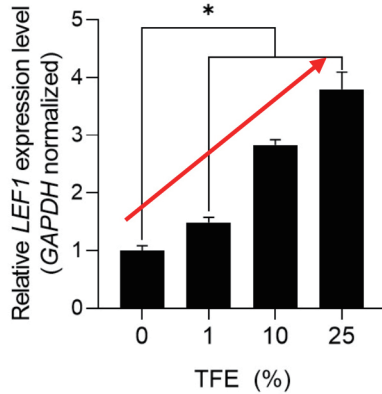

WNT5A gene expression

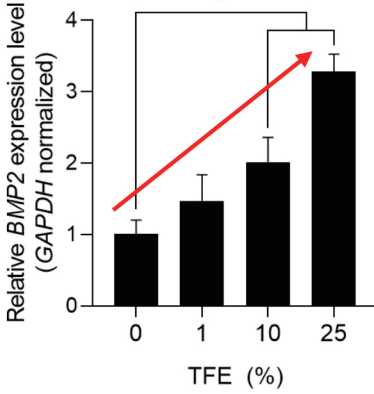

β -Catenin gene expression

LEF1 gene expression

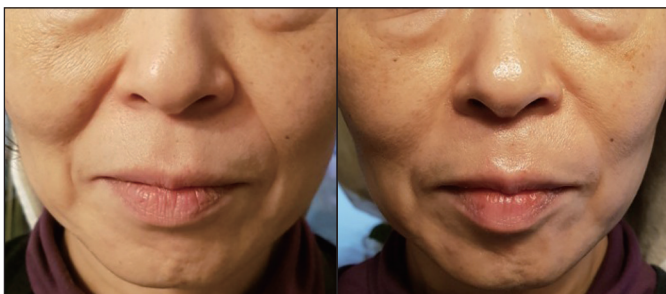

MBP2 gene expression

- Confirmation of increased cell growth promotion power
- Confirmed more than 3-fold increase in expression of core genes that promote cell growth
